ANNOUNCEMENT

This issue of the *Scientific Edition* of the JOURNAL OF THE AMERICAN PHARMACEUTICAL ASSOCIATION is supplied in two parts. Part I is the customary edition of the JOURNAL, and Part II is a supplement carrying the list of active members of the AMERICAN PHARMACEUTICAL ASSOCIATION, the roster of committees and delegates, a brief history and summary of the ASSOCIATION's activities, the list of officers of the ASSOCIATION and places of meeting since its organization, the Constitution and By-Laws, the Certificate of Incorporation, the Code of Ethics, the lists of national, state and local pharmaceutical organizations with the names of their Secretaries, the list of accredited Colleges of Pharmacy, State Boards of Pharmacy, and other similar information.

Prior to 1945, the PROCEEDINGS of the AMERICAN PHARMACEUTICAL ASSOCIATION were published either separately or in installments in the monthly JOURNAL. Since 1949, we have been issuing the information referred to in the previous paragraph as a supplement to the *Scientific Edition* of the JOURNAL so that it could be available as a separate volume to those who refer to this information frequently. The PROCEEDINGS of the Annual Convention are published in narrative form in the *Practical Pharmacy Edition* of the JOURNAL immediately following the annual convention.

The PROCEEDINGS of the 1951 convention were published in narrative form in the September, 1951, number of the *Practical Pharmacy Edition* of the JOURNAL OF THE AMERICAN PHARMACEUTICAL ASSOCIATION. Later editions of the JOURNAL carried the addresses and reports of special interest. Many of the scientific papers and those dealing with practical pharmacy, economics, history, education, and legislation which were presented at the various section meetings have been or are being published in various issues of either the *Scientific* or *Practical Pharmacy Edition* of the JOURNAL.

In addition, there will be made available to the officers and members of the House of Delegates of the ASSOCIATION, to active members desiring it, and to libraries, a condensed stenographic transcript of the general sessions and the sessions of the House of Delegates at the 1951 convention, omitting the addresses and reports published in the JOURNAL. Copies of these PROCEEDINGS will be available to members of the ASSOCIATION without charge, and to nonmembers at $2.00 per copy.

The membership list, which is a part of the supplement to the February, 1952, *Scientific Edition*, includes active members in good standing as of October 31, 1951. Members who joined the ASSOCIATION after October 1, 1951, have been listed in one of the issues of the *Practical Pharmacy Edition* of the JOURNAL appearing since that date, and their names will, of course, be included in the next supplement to be published early in 1953.

Members of the ASSOCIATION are earnestly requested to check the accuracy of the address given with their names and send us any necessary changes.

Robert P. Fischelis, *Secretary*
AMERICAN PHARMACEUTICAL ASSOCIATION

BRIEF HISTORY AND SUMMARY OF THE ACTIVITIES OF THE AMERICAN PHARMACEUTICAL ASSOCIATION

The AMERICAN PHARMACEUTICAL ASSOCIATION was formally organized in Philadelphia, October 6–8, 1852, following a preliminary meeting of leaders of the profession in New York City in 1851. Perhaps the most important factor leading to the formation of the organization was a desire on the part of the pharmacists and physicians of that day to improve the quality of drugs which were being imported. The leaders in the movement to organize the ASSOCIATION were practicing pharmacists, members of faculties of Colleges of Pharmacy, and other persons of scientific training who were anxious to maintain and achieve higher standards of professional practice and improvement of the quality of drugs offered to the American people.

The objectives as stated in the Constitution were to "unite the educated and reputable pharmacists of America in an effort to improve and regulate the drug market by preventing the importation of inferior, adulterated, or deteriorated drugs, and by detecting and exposing home adulterations; to encourage proper relations with the other health professions; to improve pharmaceutical science by diffusing scientific knowledge, fostering pharmaceutical literature, developing talent, stimulating discovery and invention, and encouraging domestic production and manufacture of drugs and medicines; to regulate education and training of pharmacists; to suppress empiricism and to restrict the dispensing and distribution of medicines to qualified pharmacists; to uphold standards of authority in the education, theory, and practice of pharmacy with a view to the highest good and the greatest protection to the public."

The ASSOCIATION's membership includes practicing pharmacists, wholesale druggists, pharmaceutical manufacturers and their representatives, drug importers, teachers, research workers, editors and publishers of pharmaceutical literature, pharmaceutical chemists, food and drug officials, hospital pharmacists, association officials, students, and pharmacists in the government service.

Annual dues for Active Members are $10, including both the *Practical Pharmacy Edition* of the JOURNAL and the *Scientific Edition* of the JOURNAL. Associate Membership is open through Student Branches to students in accredited schools and colleges of pharmacy. Such members have all the privileges of active membership except those of voting, holding office, or serving on standing committees of the Association. They enjoy full privileges of voting and holding office in the Student Branch of which they are a member.

Associate (student) member dues are $3.00 a year, including the *Practical Pharmacy Edition* of the JOURNAL or the *Scientific Edition* of the JOURNAL; or $5.00 a year when both editions of the JOURNAL are included. Of these amounts, $1.00 is remitted to the Student Branch for its support.

The by-laws also provide that any person approved by the Council as meeting the qualifications for active membership in the ASSOCIATION may be granted life membership if he pays to the Treasurer the sum of $200 during the first ten years of his connection therewith and also to any active member, not in arrears, who after 10 years shall pay the sum of $150, or after 15 years the sum of $100, or after 20 years the sum of $80 or after 25 years the sum of $50. Any member who may have paid annual dues for 40 consecutive years, may become a life member upon approval by the Council.

Separate subscription to the JOURNALS is $4.00 a year for each JOURNAL or $7.00 a year for both editions.

Publications of the ASSOCIATION include the National Formulary, which is now in its ninth edition; the Pharmaceutical Recipe Book, now out of print; the *Scientific Edition* of the JOURNAL OF THE AMERICAN PHARMACEUTICAL ASSOCIATION, now in its forty-first volume; the *Practical Pharmacy Edition* of the JOURNAL OF THE AMERICAN PHARMACEUTICAL ASSOCIATION, now in its thirteenth volume; and *Drug Standards*, formerly known as the *Bulletin of the National Formulary Committee*, now in its twentieth volume. The ASSOCIATION also publishes monographs on selected subjects at irregular intervals.

The ASSOCIATION holds annual meetings. The ASSOCIATION's 22 Local Branches and 68 Student Branches in various cities hold monthly or semimonthly meetings.

The ASSOCIATION makes two scientific awards: The Ebert Prize, consisting of a medal, which is awarded annually to the author of the best paper presented before the Scientific Section; and The Kilmer Prize, consisting of a gold key, which is awarded annually for the best paper submitted on a subject related to pharmacognosy.

At the request of the Chilean Iodine Educational Bureau Inc., the ASSOCIATION has acted as sponsor of an Award for Research in the Pharmaceutical Chemistry of Iodine. This is an award of $1000 given in recognition and encour-

agement of outstanding research in the chemistry and pharmacy of iodine and its compounds as applied in pharmacy or medicine.

The New York Branch of the AMERICAN PHARMACEUTICAL ASSOCIATION also makes an annual award known as The Remington Honor Medal to the man or woman who has done the most for American pharmacy during the preceding year or whose efforts during a number of years have resulted in the most important contribution to American pharmacy

The ASSOCIATION is governed between annual conventions by the Council consisting of sixteen members, and its principal business at annual meetings is carried on by the House of Delegates which is made up of representatives of State and National Pharmaceutical Associations, Sections of the ASSOCIATION and the Council.

The ASSOCIATION participates actively in the American Council on Pharmaceutical Education, the American Foundation for Pharmaceutical Education, the American Documentation Institute, the American Society for Testing Materials, the U. S. Pharmacopœial Convention, the Commission on Standardization of Biological Stains, the American Association for the Advancement of Science, the International Pharmaceutical Federation and the Pan-American Congress on Pharmacy. Its representatives are called into consultation by various Government agencies on matters pertaining to pharmaceutical education; manpower; and production, standardization, and distribution of drugs and medicines. It also maintains a close liaison with the armed forces and with other professional and scientific associations, foundations and conferences.

The activities of the laboratories of the ASSOCIATION are directed toward the establishment and improvement of standards of purity, quality, and strength of drugs and medicines, particularly those of the National Formulary. They also include researches and routine procedures associated with prescription problems, establishment of tolerances for extemporaneous compounding, dispensing techniques and the development of dosage forms for drugs.

Through its Committee on Pharmaceutical Research the ASSOCIATION makes research grants for studies relating to the standardization and development of drugs.

The ASSOCIATION maintains its own building and laboratory, library and museum facilities in Washington. The building and grounds, including the memorial to all pharmacists who served in the wars of our country, occupy the block on Constitution Avenue between 22nd and 23rd Streets. This building also houses the editorial and administrative offices of the ASSOCIATION.

The members of the AMERICAN PHARMACEUTICAL ASSOCIATION function as individuals in the general sessions of the ASSOCIATION at the national convention. The general sessions may take final action on any item of business acted on by the House of Delegates.

The reports of all Officers and Committees and of the Council are referred to the House of Delegates and the House takes action on recommendations offered from these sources and from individual members of the House. Usually such action is taken through the Committee on Resolutions, which submits its recommendations to the House. The recommendations are then debated and finally acted upon. They must be approved at the final general session of the ASSOCIATION before they become the policy of the ASSOCIATION on the subject covered.

The Council of the ASSOCIATION acts for the House of Delegates and for the ASSOCIATION in the interim between national conventions. Since the Secretary of the ASSOCIATION is also the Secretary of the House of Delegates and of the Council and is designated as the General Manager of the ASSOCIATION, it becomes his duty, as the Administrative Officer, to implement the actions taken by the ASSOCIATION with the help of the other officers, committees and the staff at the headquarters building.

The varying interests of the members of the AMERICAN PHARMACEUTICAL ASSOCIATION are provided for at the convention through meetings of the Sections of the ASSOCIATION. There are five Sections, namely, the Scientific Section, the Section on Practical Pharmacy, the Section on Education and Legislation, the Section on Pharmaceutical Economics and the Section on Historical Pharmacy. These sections provide opportunities at a number of sessions throughout the annual convention for the presentation of papers and discussions on a wide variety of subjects.

There are also a number of affiliated and related organizations which meet either immediately prior to, or subsequent to, the annual meetings of the AMERICAN PHARMACEUTICAL ASSOCIATION. Of these, the American Society of Hospital Pharmacists and the American College of Apothecaries are affiliated organizations, which means that membership in these Associations is limited to persons holding membership in the A. PH. A.

The ASSOCIATION also has affiliated with it the Women's Auxiliary of the A. PH. A., which is an organization of wives and other female relatives of male members of the parent Association, organized to assist in carrying out the A. PH. A. objectives. Although it is principally a social organization, the objectives of the Auxiliary include development of scholarship funds and other activities in the interest of women pharmacy students.

As the ASSOCIATION enters its 100th year of activity it is geared to the presentation of a well-rounded program designed to sponsor and carry out activities in the field of health and medical care, which will serve the best interests of the public and the profession.

CODE OF ETHICS OF THE AMERICAN PHARMACEUTICAL ASSOCIATION

(Adopted August 17, 1922)

CHAPTER I.—THE DUTIES OF THE PHARMACIST IN CONNECTION WITH HIS SERVICES TO THE PUBLIC

Pharmacy has for its primary object the service which it can render to the public in safe-guarding the handling, sale, compounding and dispensing of medicinal substances.

The practice of pharmacy demands knowledge, skill and integrity on the part of those engaged in it. Pharmacists are required to pass certain educational tests in order to qualify under the laws of our states. The states thus restrict the practice of pharmacy to those persons who by reason of special training and qualifications are able to qualify under regulatory requirements and grant to them privileges necessarily denied to others.

In return the states expect the Pharmacist to recognize his responsibility to the community and to fulfil his professional obligations honorably and with due regard for the physical and moral well-being of society.

The Pharmacist should uphold the approved legal standards of the United States Pharmacopoeia and the National Formulary for articles which are official in either of these works, and should, as far as possible, encourage the use of these official drugs and preparations and discourage the use of objectionable nostrums.[1] He should sell and dispense only drugs of the best quality for medicinal use and for filling prescriptions.

He should neither buy, sell nor use substandard drugs for uses which are in any way connected with medicinal purposes.

The Pharmacist should be properly remunerated by the public for his knowledge and skill when used in its behalf in compounding prescriptions, and his fee for such professional work should take into account the time consumed and the great responsibility involved as well as the cost of the ingredients.

The Pharmacist should not sell or dispense powerful drugs and poisons to persons not properly qualified to administer or use them, and should use every proper precaution to safeguard the public from poisons and from all habit-forming medicines.

The Pharmacist, being legally entrusted with the dispensing and sale of narcotic drugs and alcoholic liquors, should merit this responsibility by upholding and conforming to the laws and regulations governing the distribution of these substances.

The Pharmacist should seek to enlist and merit the confidence of his patrons and when this confidence is won it should be jealously guarded and never abused by extortion or misrepresentation or in any other manner.

The Pharmacist should consider the knowledge which he gains of the ailments of his patrons and their confidences regarding these matters, as entrusted to his honor, and he should never divulge such facts unless compelled to do so by law.

The Pharmacist should hold the health and safety of his patrons to be of first consideration; he should make no attempt to prescribe or treat diseases or strive to sell drugs or remedies of any kind simply for the sake of profit.

He should keep his pharmacy clean, neat and sanitary in all its departments and should be well supplied with accurate measuring and weighing devices and other suitable apparatus for the proper performance of his professional duties.

It is considered inimical to public welfare for the Pharmacist to have any clandestine arrangement with any Physician in which fees are divided or in which secret prescriptions are concerned.

The Pharmacist should primarily be a good citizen, and should uphold and defend the laws of the state and nation. He should inform himself concerning the laws, particularly those relating to food and drug adulteration and those pertaining to health and sanitation, and should always be ready to cooperate with the proper authorities having charge of the enforcement of the laws.

The Pharmacist should be willing to join any constructive effort to promote the public welfare and he should regulate his public and private conduct and deeds so as to entitle him to the respect and confidence of the community in which he practices.

---

[1] An objectionable nostrum is one which does not meet the requirements of the definition of the Commission on Proprietary Medicines of the AMERICAN PHARMACEUTICAL ASSOCIATION.

CHAPTER II.—THE DUTIES OF THE PHARMACIST IN HIS RELATIONS TO THE PHYSICIAN

The Pharmacist even when urgently requested so to do should always refuse to prescribe or attempt diagnoses. He should, under such circumstances, refer applicants for medical aid to a reputable legally qualified Physician. In cases of extreme emergency as in accident or sudden illness on the street in which persons are brought to him pending the arrival of a Physician, such prompt action should be taken to prevent suffering as is dictated by humanitarian impulses and guided by scientific knowledge and common sense.

The Pharmacist should not, under any circumstances, substitute one article for another, or one make of an article for another in a prescription, without the consent of the Physician who wrote it. No change should be made in a Physician's prescription except such as is essentially warranted by correct pharmaceutical procedure, nor any that will interfere with the obvious intent of the prescriber, as regards therapeutic action.

He should follow the Physician's directions explicitly in the matter of refilling prescriptions, copying the formula upon the label or giving a copy of the prescription to the patient. He should not add any extra directions or caution on poison labels without due regard for the wishes of the prescriber, providing the safety of the patient is not jeopardized.

Whenever there is doubt as to the interpretation of the Physician's prescription or directions, he should invariably confer with the Physician in order to avoid a possible mistake or an unpleasant situation.

He should never discuss the therapeutic effect of a Physician's prescription with a patron nor disclose details of composition which the Physician has withheld, suggesting to the patient that such details can be properly discussed with the prescriber only.

Where an obvious error or omission in a prescription is detected by the Pharmacist, he should protect the interests of his patron and also the reputation of the Physician by conferring confidentially upon the subject, using the utmost caution and delicacy in handling such an important matter.

CHAPTER III.—THE DUTIES OF PHARMACISTS TO EACH OTHER AND TO THE PROFESSION AT LARGE

The Pharmacist should strive to perfect and enlarge his professional knowledge. He should contribute his share toward the scientific progress of his profession and encourage and participate in research, investigation and study.

He should associate himself with pharmaceutical organizations whose aims are compatible with this code of ethics and to whose membership he may be eligible. He should contribute his share of time, energy and expense to carry on the work of these organizations and promote their welfare. He should keep himself informed upon professional matters by reading current pharmaceutical and medical literature.

He should perform no act, nor should he be a party to any transaction, which will bring discredit to himself or to his profession or in any way bring criticism upon it, nor should he unwarrantedly criticize a fellow Pharmacist or do anything to diminish the trust reposed in the practitioners of pharmacy.

The Pharmacist should expose any corrupt or dishonest conduct of any member of his profession which comes to his certain knowledge, through those accredited processes provided by the civil laws or the rules and regulations of pharmaceutical organizations, and he should aid in driving the unworthy out of the calling.

He should not accept agencies for objectionable nostrums nor allow his name to be used in connection with advertisements or correspondence for furthering their sale.

He should courteously aid a fellow Pharmacist who may request advice or professional information or who, in an emergency, needs supplies.

He should not aid any person to evade legal requirements regarding character, time or practical experience by carelessly or improperly endorsing or approving statements relating thereto.

He should not imitate the labels of his competitors nor take any other unfair advantage of merited professional or commercial success. When a bottle or package of a medicine is brought to him to be refilled, he should remove all other labels and place his own thereon unless the patron requests otherwise.

He should not fill orders which come to him by mistake, being originally intended for a competitor.

He should deal fairly with manufacturers and wholesale druggists from whom he purchases his supplies; all goods received in error or excess and all undercharges should be as promptly reported as are shortages and overcharges.

He should earnestly strive to follow all proper trade regulations and rules, promptly meet all obligations and closely adhere to all contracts and agreements.
